PROFESSIONAL SUMMARY

Results-driven and passionate Full Stack Developer with over 2 years of practical experience building, optimizing, and deploying modern web applications. Specialized in **React** and **Next.js**, with a deep understanding of Component-Based Development and relational databases (**SQL**). Highly proficient in leveraging cutting-edge AI tools (GitHub Copilot, Gemini) to accelerate development workflows and write clean, efficient code. An agile team player who thrives in collaborative environments, adheres to strict deadlines, and delivers high-quality, reusable code.

HIGHLIGHTED INDIVIDUAL PROJECT

Setkorg (www.setkorg.com) | *Creator & Lead Developer*

- Designed, developed, and deployed a complex full-stack web application from scratch, demonstrating advanced software architecture, component-based design, and seamless CI/CD integration.
- **Tech Stack:** Next.js, TypeScript, Tailwind CSS, GitHub, Vercel, tawk.to, Sanity CMS, Stripe, SQL.
- **AI & Workflow Integration:** Actively used VS Code, GitHub Copilot, and Gemini to boost productivity, write secure database queries, and optimize UI/UX components.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, SQL.
- **Frontend Technologies:** HTML5, CSS3, Bootstrap, Tailwind CSS, React, Next.js, Redux (Component-Based Development), Context API/State Management.
- **Backend, Tools & DevOps:** Git, Vercel, Command Line, Sanity CMS, Stripe Integration.
- **AI Tools & Automation:** GitHub Copilot (Subscriber), Gemini.

WORK EXPERIENCE

DevOps & React-Native Developer (Internship) | *NTG S.R.L* (11/2018 – 07/2019)

- Collaborated closely with a cross-functional development team to build, test, and optimize cross-platform mobile applications using React-Native.
- Contributed to streamlining DevOps workflows and Continuous Integration (CI) pipelines using **Ansible**, **Terraform**, and containerization concepts with **Docker**.
- Wrote clean, reusable components and strictly met development milestones and product

release deadlines.

MIDI / Audio Engineer | *Freelance / Self-Employed* (09/2005 – Present)

- Diagnose and resolve complex technical audio issues, specializing in digital signal processing, professional multi-track mixing, and audio restoration.
- Provide specialized services in Audio-to-MIDI / MIDI-to-Audio conversion, podcast editing, advanced spectral noise reduction (de-noise), and clean master processing.
- Successfully managed contracts for local and international clients via freelancing networks: [Upwork Profile](#).

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Engineering | *Technical University of Moldova* (10/2012 – 07/2017)

Faculty of Computers, Informatics and Microelectronics

- **Core Subjects:** Algorithms & Data Structures, High-Level Programming (C/C++, C#), Computer Architecture, Systems Engineering, Numerical Computation.

Web Academy (Angular Development) | *Pentalog CHI S.R.L* (12/2017 – 02/2018)

- Completed an intensive frontend academy focusing on modern Angular development, component architecture, and engineering best practices.

English Language Course | *Linguata School* (10/2019 – 03/2020)

LANGUAGES

- **Romanian:** Native
- **English:** Level B1 (Intermediate – professional and technical communication, team collaboration)
- **Russian:** Conversational
